EDUCATION

Indira Gandhi Delhi Technical University for Women

Master of Computer Applications (MCA)

Delhi, India

2025 – 2027

Indira Gandhi National Open University

Bachelor of Computer Applications (BCA)

New Delhi, India

2022 – 2025

PROJECTS

ClipQuery [↗](#) | [React.js](#), [Tailwind CSS](#), [FastAPI](#)

- Built an AI-powered semantic video search system using React, FastAPI, OpenCV, BLIP, and SentenceTransformers.
- Implemented frame extraction, caption generation, semantic search, and timestamp-based clip extraction using FFmpeg.
- Integrated semantic retrieval workflows for natural language-based video clip discovery and analysis.
- Added time filtering, recent search history, clip collection, and interactive dashboard features.
- Deployed responsive frontend on Vercel for semantic video search workflows.

MediKart [↗](#) | [React.js](#), [Spring Boot](#), [PostgreSQL](#)

- Developed a full-stack medicine e-commerce platform using React.js, Spring Boot, and PostgreSQL.
- Implemented product search, shopping cart, user authentication, and order management features.
- Built REST APIs for efficient frontend-backend communication and database operations.
- Designed a responsive UI with reusable React components and improved usability.
- Deployed frontend on Vercel and backend on Render with cloud PostgreSQL integration.

Lip Reader [↗](#) | [Python](#), [TensorFlow](#), [Keras](#), [Streamlit](#)

- Developed a deep learning lip-reading application using TensorFlow, Keras, 3D CNN, and LSTM.
- Processed GRID corpus video data for sequence based speech prediction tasks.
- Built preprocessing and inference pipelines for video-based prediction workflows.
- Created a Streamlit interface for uploading video clips and displaying predictions.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Spring Boot, REST APIs, FastAPI

Databases: MySQL, PostgreSQL

AI/ML: TensorFlow, Keras, OpenCV, Sentence Transformers, BLIP

Tools: Git, GitHub, VS Code, Vercel, Render, Streamlit, Postman

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks
